

VidyoRoom™ HD-40

Ultra-Compact Group Solution for HD Video Collaboration

The VidyoRoom HD-40 delivers outstanding quality and reliability for smaller conference rooms, mobile carts, and shared workspaces. With support for advanced features like far-end camera control and seamless integration with all other endpoint types, remote participants feel as though they are in the room and engaged in the conversation. Like every VidyoRoom solution, the HD-40 supports multipoint participant video, HD encoding and decoding, and dual screens at no extra cost, making this ultra-compact system both supremely capable and refreshingly affordable.

Key Features

VidyoRoom HD-40 Highlights

- Ultra-compact form factor fits almost anywhere
- Share content by joining the conference with VidyoDesktop[™], the VidyoSlate[™] tablet app, or local USB connection
- Quiet and discrete, with low power consumption (> 65 watts)
- Supports the Logitech GROUP, which integrates a noise-cancelling speakerphone with a PTZ camera capable of far-end camera control (FECC)

Outstanding User Experience

- Enjoy HD quality: transmit up to 720p30, receive up to 1080p30
- Call from a global address book of users and rooms with presence and speed dials
- Display up to 8 participants in continuous presence
- Choose from multiple participant video and shared content layouts for both single- and dual-screen deployments
- Call participants, control cameras, and manage conferences with the hand-held remote control or by touchscreen with the free VidyoRemote™ app for tablets
- Calendar integration for single-click meeting access with support for Microsoft® Exchange and Google® Calendar

Exclusive Vidyo Technology

- Connects through VidyoRouter[™] for highlyscalable multipoint performance with imperceptible latency
- Advanced SVC (UCIF Mode 2s) delivers unmatched quality, reliability, and efficiency
- Dynamic adaptation technologies continuously optimize media streams for unmatched fidelity over variable networks and devices
- Conference with participants from all types of endpoints, including room systems, desktops, laptops, tablets, and mobiles
- Access legacy endpoints via the Vidyo infrastructure or through the free VidyoWay™ interconnectivity service

Easy to Own & Secure

- VidyoPortal[™] provides conference moderation and automatic software updates
- Optional media and signaling encryption
- PIN-protect and lock virtual conference rooms
- Integrates with room automation solutions such as AMX, Crestron, and Extron
